

# How can we help today?

## Are you plagued by these IT concerns?

**Do you have untimely network failures?** Are you concerned about what might fail and when, and then worried about having to wait for a technician to arrive?

**Are you not staying current?** With increasing network complexity, do you struggle to keep up with IT advancements and security threats?

**Do you lack a technology plan?** Do you lack strategies for how your technology can best serve your needs, now and in the future?

## Why others come to SBNC

Clients come to us when they're frustrated with their computer systems, when they're concerned about data security and when they're expanding and need to improve or scale their IT systems.

They rely on us for:

- **Network Design and Security**
- **Data Backup and Recovery**
- **PC, Printer, and Scanner Installation and Maintenance**
- **Software Installation and Maintenance**
- **Managed Services**
- **Cloud based services to include email, storage, backup, websites and more!**

We are a single-source provider solving the IT problems many businesses face.

### Are you ready to?

**Focus on your business, not your IT problems.** SBNC is your computer and networking watchdog, enabling you to focus on your core business activities - instead of managing computers the network and its problems.

**Have faster issue resolution with full-time network monitoring.** With 24/7/365 monitoring, you dramatically shorten the time from computer failure to issue resolution. Our technicians always know the health of your entire network.

**Enjoy service and business continuity.** With multiple layers of data backup, protection and redundancy, even the most severe disaster or outage won't impact your important access to data and applications.
